## STATEMENT

### BY PFISTER

**WAS NOT MISAPPROPRIATE MONEY.**

**Was Indicted for Having Stolen \$14,000 Placed in His Hands—Corroborated by Pfister's Personal Bank Account.**

Milwaukee, Sept. 1.—In a signed statement to night Charles F. Pfister, who was indicted three weeks ago by the grand jury on charge of having stolen \$14,000 which had been placed in his hands by the Wisconsin Rendering company, shows the manner in which \$25,000 which he had held for the company was disbursed. After the indictment was returned the president of the rendering company denied that Pfister had misappropriated any of its money and since then the company has made full payment on notes held against it by Pfister without offering any counter claim. The indictment, however, has been circulated that the money, if not misappropriated, was used for corrupt purposes by Pfister. The statement now issued is corroborated by the bank record showing Pfister's personal account by a statement signed by officers of the rendering company, and also by a statement signed by John J. Crilly, the contractor to whom most of the money was paid. Crilly in acknowledging payments to him explains that when the city contract was awarded to his firm he found himself unable to enter into the contract on account of lack of funds. An agreement was made with the rendering company by which it was to have the contract if it would put up \$25,000 with some responsible man, out of which was to be paid expenses Crilly was put to in connection with the contract. Pfister was selected as custodian of this fund. He had no interest with any of the bidders and paid out the money in accordance with orders of the parties interested and had nothing to do with it further. None of this money, Crilly states, was used for unlawful purposes. The payments show conclusively that Pfister did not steal any of the rendering company's money and also that he did not use any money in an improper manner.

A supplemental statement by Pfister's attorneys discloses the fact that when the grand jury had the indictment under consideration two of its members, together with the district attorney, visited the First National bank and there received Pfister's permission to examine his account. They found an entry showing a deposit of \$25,000 July 19, 1897, but apparently disregarded entries on the same page showing payments of \$5,000 and \$9,000 respectively to Crilly, nor did they call upon Pfister for any explanation which would readily have put them in possession of facts showing the charge of theft to be without foundation.

The statement now issued seems to show there is basis neither for indictment on a charge of felony, nor for accusations that money held by Pfister was used by him corruptly.

## STORM IN CHICAGO

Chicago, Sept. 1.—The severest storm of the year raged for two hours this evening. The wind at times blew forty miles an hour and nearly two inches of rain fell. In the business section of the city a number of signs and awnings were torn loose and some windows blown in. Thunder and lightning were terrific and several large office buildings were struck. Several fires were started by lightning in the outskirts of the city. In parks and suburbs much damage was done, many trees being leveled and sheds and outhouses blown down.

**FAILED TO FIND MONEY.**  
Collinsville, Ill., Sept. 1.—Tony Stager was arrested by the chief of police, as it was thought he knew something of the \$400 belonging to Frank McCarey, which is missing. He was released after a brief examination. McCarey is a miner and was until recently employed in the Helena, Idaho coal mine. He had a distrust of banks and rather than trust his savings to these institutions he buried his money in a small shed in the rear of his house. Last Monday he made preparations to engage in the butcher business with the money he had saved during his two years at digging coal. He visited his treasure trove this morning, to find that the coin was still in its place, but the money was missing.

**TENNIS MATCH.**  
Cincinnati, Sept. 1.—Miss May Sutton, the world's tennis champion, to day defeated Miss Helen Homans, New York state tennis champion, in semi-finals of Indian singles at the Tri-State tennis tournament, 6-0, 6-1. New Hampshire.**

The banquet probably will be held at Mount Washington house in the White mountains at some time in the near future.

## WORKING ON TREATY

**Armistice to Take Effect After  
Signature of Document—  
May Be Completed  
To Day.**

Portsmouth, N. H., Sept. 1.—An armistice has been signed to take effect after signing of the treaty. The delay in cessation of hostilities was due to the refusal of Japan to consent to earlier time.

As a result of reports made to night by De Martens and Dennison to their respective chiefs upon their work in drafting the treaty of peace, Witte and Komura had a conference in the former's apartments to night regarding some details of translation and the few points of interpretation upon which the framers had been unable to reach complete accord. Witte and Komura had no difficulty in coming to an agreement on disputed points and at to-morrow's session the framers of the treaty expect to complete their work. The treaty must then be engrossed in French and English in duplicate, which may take several days. It is stated to night twelve articles have been completed and agreed upon. It now seems probable the framers will be able to complete the treaty to fourteen articles instead of fifteen as was the original plan.

**AN EXPLANATION.**  
Mr. Sato, in explanation of Japan's insistence that an armistice shall not go into effect until the treaty is signed, said: "It is necessary that not only commanders in the field, but all commanders of ships, shall be notified and this necessarily requires a little time. Japan did not desire to have an armistice go into effect until commanders on sea and land had been notified, thus insuring maintenance of the agreement."

**TO ENGROSS PEACE TREATY.**  
Washington, Sept. 1.—Edward B. Russ of the diplomatic bureau of the department of state has gone to Portsmouth for the purpose of engrossing the treaty of peace. He took with him an ample supply of parchment invariably used for treaties.

**American Accused of Photographing  
Jamaica Fortifications Set Free.**

Kingston, Jamaica, Sept. 1.—Dr. Franklin Clarke, of Boston, Mass., arrested here July 17 and tried yesterday before the chief justice for breach of an official secret act by taking photographs of fortifications at Port Royal, was liberated to day. After the proceedings yesterday, when the chief justice summed up in favor of the prisoner, but the jury failed to agree, resulting remanding Clarke on bail until to day, the crown prosecution saw that his case was hopelessly weak and accordingly dismissed the case.

President Roosevelt's letter convening the board was read and also a lengthy communication from Chairman Shonts, in which the progress of operations on the canal, data gathered and arguments of those favoring a sea level canal and of others in favor of locks were submitted. An edict has been issued by the government commanding the viceroys and governors of provinces to take measures for suppression of the boycott, holding them strictly responsible. Cleveland, Ohio, Sept. 1.—Disappointed because the Japanese government renounced all indemnity in the peace settlement and did not insist on greater territorial acquisitions from Russia, Shogun Kitaru, Cleveland's leading Japanese merchant, has renounced allegiance to the mikado by taking out his first naturalization papers. ## THE MONTH

### STARTS WELL

**MARKED ACTIVITY IN ALL LINES**

**Confidence in Future Strengthened by Ending of Hostilities Between Russia and Japan—Reviews of Trade.**

New York, Sept. 1.—Bradstreet's says: September opens with full buying apparently showing marked activity in all lines of industry, liberal buying by railroads for India and supplies, currency shipments to the country to move crops increasing, and with confidence as to the outlook for trade previously noted strengthened by the successful issue of the Russo-Japanese peace negotiations. These later, jointly with increased pressure of supplies of agricultural products at leading markets had a distinct effect upon many commodity values, the tendency being toward a lower level in cotton, live animals, potatoes and butter. It is to be noted, however, home products are strong and higher on the week.

Something like transference of fall trade activity from the west to the east is indicated in reports that house trade is less active relatively in the former section owing to the return home of excursionists, whereas the eastern markets have been benefited by the influx of out of town buyers. Western houses are, however, pushed to fill orders previously received and business west and northwest is still heavily in excess of a year ago. Large eastern centers report marked activity in all lines of cotton goods and larger buying of clothing, shoes, millinery, lumber, building material and hardware. From the Pacific coast it is learned Alaska has shipped \$9,000,000 gold to this country this season. That crops as a whole promise well and that improvement in the lumber trade continues.

Wheat, including flour, exports for the week 1,425,000 bushels, against 1,831,000 this week last year; July 1 to date 8,907,000, against 16,465,000 last year.

Corn exports 1,183,000 bushels, against 711,000 a year ago; July 1 to date 9,288,000, against 5,274,000 in 1904.

**DUN'S REPORT.**  
New York, Sept. 1.—Dun says: Peace and prosperity succinctly express the results of an eventful week. International mercantile markets responded to the cessation of hostilities and a period of commercial development may be expected to follow the return of confidence. Capital that had been diverted into bellicose channels will be used for construction instead of destruction and the United States will secure a stronger hold on the market of orient. Domestic reports were scarcely less encouraging. Leading branches of manufacture are increasing productive capacity especially in departments pertaining to railway equipment; textile mills have little idle machinery. Footwear factories are running freely, while in structural work there is no evidence of lessened activity. Visiting buyers still throng the great jobbing centers and place orders for distant delivery that testify to the faith in the vigorous demand of consumers. Railway earnings thus far available for August show an increase of 4.8 per cent over last year and foreign commerce at this port for the last week exhibit gains of \$1,592,032 exports and \$1,682,622 imports compared with 1904. Liabilities of failures in August were \$4,350,000 less than last year and the latest crop news endorses earlier estimates of a record breaking cereal production, most of the harvesting and threshing being completed. Iron and steel production increases in response to broadening demand, extensive plans for enlarged facilities being contemplated and in structural shapes pressure for prompt shipment.

Failures this week were 217, against 222 the corresponding week last year.

**BANK CLEARINGS.**  
New York, Sept. 1.—The total bank clearings compiled by Bradstreet's for the principal cities in the United States for the past week were \$2,874,811,301, an increase of 31.8 per cent compared with the corresponding period last year.

## SWINDLER ARRESTED

Chicago, Sept. 1.—George E. Davenport, said by postoffice inspectors to be a swindler, was arrested here to day. It is claimed by federal authorities that Davenport has swindled many business men and farmers in various parts of the middle west during the last two years. His method of operation is declared by officers to have been to sell woolsens and silks and then to get the man who purchased the goods to send them to a branch house which Davenport claimed to have to be made into garments. The purchaser would never see his goods again.

**INSURANCE FRAUDS.**  
New York, Sept. 1.—Evidence of extensive fraud in writing of life insurance on risks known to have been bad has been brought to the attention of the legislative committee. It is asserted that in this class of fraud there has been collusion between officers and agents of the companies of high standing.

**THE SULTAN'S ANNIVERSARY.**  
Constantinople, Sept. 1.—To day being the anniversary of accession to the throne of the sultan, Abdul Hamid II, his majesty's reception was attended by all the members of the diplomatic corps. The city was decorated with flags and salutes were fired. The sultan ordered the release of 1,113 prisoners.

Hopeful Views of Fever  
Fighters.**

New cases, 38.  
Total cases, 1,958.

The fever record to day bore out the hopeful view of Dr. White and his fellow fever fighters that the worst is over and if the citizens are watchful and continue to give the authorities the same co-operation they have in the past few weeks a miracle will be wrought of stamping out the fever before frost comes. Contrary to expectations, the fever is assuming a milder form and deaths have grown insignificant in number.

There was cheering without limit for everybody, applause being brought to a close by the West Point cadets, who gave their famous yell.

New York's total of 4,628 out of a possible 6,000 exceeded the score made by the team last year at Fort Riley in the national match by 295 points. In addition to the national trophy New York received a cash prize of \$300. The Infantry team of the United States army received the Hilton trophy and \$200; Ohio, the bronze "Soldier of Marathon" trophy and \$150; marine corps, \$100; navy, \$75; New Jersey, \$50. The government is really treating the farmer more liberally than it is the resident of the small town. It delivers his mail to the farmer, small matter now where he lives, and does it every day, while the resident of the small town has to get his mail as best he can.

To a large extent, the papers of a town are responsible for the good name of the town. Nearly every city contains objectionable features, at least in the estimation of some of its citizens; but the wisdom of condemning ourselves in the eyes of the world every time something or some condition arises to our individual displeasure is very questionable. To run down our own city is poor policy, rather had we better stand up for our town, even though conditions, socially and otherwise, be not to our liking. It is not necessary that we close our eyes to these conditions, rather that we work quietly to their betterment.

### THE PHILIPPINE SCHOOL SYSTEM.

Nothing in the whole history of our six years' sojourn in the archipelago is more encouraging than the warm welcome accorded to the American school teachers, followed by the recent rapid growth of the insular school system. The importance of the work that is being done in the islands by American school officers and organizers is very imperfectly understood in this country. The fact that more than half a million children and youths are now enrolled in the Philippine public schools can only be appreciated in its true significance when we remember that instruction in English is required in all grades, that a great part of the teaching is done altogether in English, and that attendance at the schools is entirely voluntary. The fact that a school system of such magnitude could be developed under the peculiarly difficult conditions existing in the Philippines and made a popular institution throughout the archipelago within seven years after the sinking of the Spanish ships in Manila bay is a striking tribute to the executive ability, enthusiasm and devotion to duty of the American men and women who have gone out to the islands with the idea of doing pioneer work in education. Hundreds of teachers who take positions each year in the Philippines have an influence outside of the schoolroom far greater in some respects than they had at home. They are continually brought in contact with the local governing bodies, are called upon for advice on civic and social matters, and have a thousand and one opportunities to mold the political insinuations of this interesting people at the formative period. From "The Progress of the World," in the American Monthly Review of Reviews for September.

### SEPTEMBER WEATHER.

Data covering a period of twenty-five years, compiled from the records of the weather bureau records in Springfield for September, show the mean or normal temperature to be 67 degrees. The warmest month was that of 1897, when the mean temperature was 73 degrees, and the coldest in 1879, with an average of 62 degrees. The highest temperature for the month was reached on Sept. 5, 1902, when the mercury reached 90 degrees, while the lowest reached was 31 degrees on Sept. 30, 1899. The earliest date on which a killing frost occurred was on Sept. 26, and the average date on which killing frost occurs is on Oct. 16. The average precipitation for the month for the past twenty-five years was 8.22 inches, and the greatest monthly precipitation was 7.24 inches, in 1886, while the least monthly precipitation for the month was .36, in 1897. The greatest precipitation for twenty-four hours was on Sept. 16, 1886, when 3.25 inches of rain fell. The average number of clear days for the month is 14, partly cloudy and cloudy 6. The prevailing direction of the wind has been south, with an average velocity of 8 miles, the highest velocity being 44 miles from the north, on Sept. 23, 1879.

### CURE FOR SICK HEADACHE.

We had a letter from a lady in Boulder, Colo., that should be of interest to people troubled with sick headache. She writes that she had these spells four times a week, was obliged to remain in bed from eight to ten hours each time. The attacks became more frequent, doctors did no good. Seeing an advertisement of Dr. Gunn's Improved Liver Pills, she decided to try once more and sent 50c for two boxes. She took the last pill four months ago, has not had a sick spell for over five months. Druggists sell these pills. They cure sick headache every time. One for a dose. Made by Dr. Bosanko Co., Philadelphia, Pa. Lee P. Alcott, Agent.

## WILL SUE COMMITTEE

### Virginia Woodmen Say Ruling of Beardstown Carnival Committee Was Unfair.

The carnival committee at Beardstown overruled the decision of the judges in the logrolling contest last week and awarded the \$50 prize to the Frederick team. The judges had decided the contest in favor of the Virginia team, and in explanation of the committee's action the Beardstown papers say persons in the crowd were authorized by the committee to act as timekeepers, who declared the Frederick team the fastest. The members of the Virginia team are surprised at the outcome and say the contest was in charge of the three judges by agreement between the carnival committee and the two competing teams. Frederick selected H. H. Krems, Virginia named C. A. Simmons, and the two selected P. A. Hinners of Arenzville, who was suggested by Mr. Krems. Virginia Woodmen also say that they can prove the judges' decision as to time made by competing teams to be correct according to bystanders with stop watches. Under all these circumstances they feel the action of the carnival people is unjust and they are preparing for a suit for the amount of the prize money, against the committee members.

### IMPROVEMENT OF THE HUMAN RACE.

To make the human race physically and morally perfect and to accomplish that end by rearing children by the application of scientific principles which have wrought miracles with plants, is the one great ambition of Luther Burbank, the famous California horticulturist.

Mr. Burbank believes that every person could become physically, spiritually and morally perfect if subjected to the same care and treatment which he has given to plants. The nature of growing children, he said in an interview with Rev. Dr. James W. Lee of St. Louis, should be brought in relation with all the elements in their environment to which they are potentially responsive.

Burbank declares that plants, weeds and trees are responsive to only a few influences in their environment, while children are infinitely more responsive and a failure to recognize certain spiritual elements in their surroundings has been the fatal lack of dealing with growing children.

Dr. Lee told Burbank that some 60,000 waifs had been educated in London homes in the last few years, and only 2 per cent of them had turned out bad. This was due to Thomas J. Barnardo of London, and Burbank replied that he was doing the same thing with plants that Barnardo was doing with children. Burbank hopes he may be able to duplicate the work of Barnardo and carry it farther.

Dr. Gertrude Bodfish, president of the Ladies' Physiological Institute, says: "The only way the human race can be improved is by carefully reared children; yes, call them scientifically cultured, if you choose. We are raising criminals now, just as fast as we can. A perfect marriage is the beginning. I believe, with Mr. Burbank, that children should be raised by the same scientific methods that plants are."

### CHATTANOOGA TRIP POSTPONED.

An official letter has been received by Commander W. J. Mareum, Matt Starr post No. 378, G. A. R., of this city, from the headquarters of the department of Illinois and signed by Charles A. Partridge, stating that owing to the yellow fever situation in the south it is best that the reunions which were to be held at Chattanooga Sept. 17 to 21 should be postponed probably until September, 1906.

Commander Mareum is requested in the letter to give this information to all comrades and friends who had planned to attend the meeting and is doing so through the medium of the local press and by individual notification.

## BARON KANEKO'S BOY.

### Little Son of One of Japan's Statesmen Wants Harvard Degree.

An incident in the life of Baron Keitiro Kaneko, former member of the mikado's cabinet, who is now in the United States, gives an intimate insight into the relation between Japan and the United States, says World's Work.

The baron is a graduate of Harvard university. After he had become one of his country's most distinguished statesmen the university conferred the honorary degree of doctor of laws upon him. President Elliot gave a dinner in honor of the baron, after which he said to him:

"Harvard university has conferred on you its highest honor. We can do no more, but I understand there is a son in your family. We claim him as a future recipient of the degree we conferred upon you. I trust he will come to us and be a worthy successor of his father."

"He will come," replied the baron. The baron returned to Japan and told the Baroness Kaneko about the incident. She told the little boy that he was to go to Harvard and receive the degree, and the fact made a great impression on the child. Whenever he was naughty the mother said: "If you are not good you will not receive the Harvard degree." He always became good.

Events moved swiftly in the far east. The war with Russia came. Baron Kaneko, who had an important part in national affairs, prepared to go to the United States. A week before he started this conversation occurred: "When do you start?" asked the Baroness Kaneko.

"In a week," replied the baron. Just then the little boy interposed: "Where are you going, papa?" "To the United States," he said. "Then I must go with you and get that Harvard degree!" exclaimed the child.

The boy is now a student at the Noble's school in Tokyo. Upon his graduation he will go to Harvard.

### President Roosevelt's Worldwide Hit.

The president made a hit with the entire world, from the pope and London Times to John D. Crummins, when he presented Russia to Japan, expressed in diplomatic language a hope that the best would win and finally called time, says Harper's Weekly. We guess that, barring possibly T. Jefferson, he is the only president we have had who could speak really good French. He also speaks excellent English. The most busy day was that which brought Secretary Shaw, Mr. Morgan and Baron Kaneko, one after the other. The president went to bed pretty tired that night. On Sunday he preached.

### A Wide Awake Schoolman.

To prevent tardiness in town schoolman recently announced she would kiss the first arrival at school every morning, says the Milwaukee Sentinel. The same night three directors and a baldheaded bachelor, who had not been to school in forty-seven years, slept in the long grass of the schoolyard and were up before dawn. When the school teacher arrived she announced a dead heat and withheld the ruby lips from the osculatory onslaught. This is a mean old world.

## ONLY ONE WIFE FOR INDIANS NOW

**Redskins of Nebraska Must Now Send Extra Wives Back to Reservation.**

Dakota City, Neb., Sept. 1.—"If polygamy is not good for the ordinary American citizen it is not good for the American Indian and I shall turn my hand to stamping out this taint of Mormon belief among the Indians in Nebraska," is the declaration of Judge W. A. Elmers, of Dakota City, who believes there is no place for Brigham Youngs and Joseph Smiths among the Indians.

For years the Winnebago and Omaha Indians have done as they pleased in domestic affairs and some of the olden Indians have had half a dozen wives, either simultaneously or successively. But one legal wife at a time, and no new ones until the last one is disposed of, is the program mapped out by the county judge and the county attorney, A. A. McAllister, of Dakota county, where the most of the Indians come for their licenses.

The State of Nebraska recognized these Indians as citizens. They have many privileges on account of this recognition, including the right to vote, buy liquor over the bar and other things dear to the hearts of the red men.

But they must not practice polygamy in the future. The ruling of Judge Elmers will be exceedingly unpopular with the Indians, and considerable trouble will result. Old Joe Harris, the Joseph Smith of the Winnebago tribe, now has eight wives. Seven of them must return to the wigwam of their fathers and await for the aged chieftain to pick one whom he desires to become his permanent wife.

Judge Elmers has been investigating the past connubial life of some of the Indians and has been refusing to issue licenses to Indians who have one wife. Recently Charles Decora, a Winnebago Indian, whose father is a Frenchman, and who is a brother to the famous Angel Decora, the Indian illustrator for Harper & Brothers, applied for a license to wed an Indian maiden of twenty summers.

Judge Elmers promptly refused to grant the license and told the Indian that if he secured a license elsewhere and married the girl before he disposed of several of his wives he would be sent to the penitentiary for bigamy.

"I will fill the prison at Lincoln full of you fellows," declared the irate judge. "If they refuse to admit a Mormon senator to congress because he believes in a religion which permits polygamy I will not grant a license to another Indian who has one lawful wife until he secures a divorce from her. I will also be careful about granting a divorce. Civilization begins right here, and polygamy among the tribe of Nebraska has come to a stop."

"Guess it makes no difference to me," replied the Indian. "I live with her and marry her under Indian custom. Guess we won't bother any more about getting married legal way. The whites all say marry in the legal way, and they won't let me."

The pretty Indian maiden, dressed in tribal custom, sat patiently awaiting the return of her lover from the court house with the necessary document, but the Indian had no words of comfort to give her when he returned, other than that they would have to live as they had been living, and that she could not become his legal wife.

Many other instances have come to light where Indians desired to marry legally the third or fourth wife. The county judge declares he will send the sheriff to the Indian homes and arrest all Indians who are living in adultery, unless there is a general cleaning up, and Poor Lo will be compelled to have but one wife and leave polygamy alone.

Miss Rose Anderson, of the Illinois Telephone company, is enjoying a two week's vacation.

## THE BABY SHOW

**WAS THE BIG ATTRACTION OFFERED FOR THE CARNIVAL FRIDAY**

**Fourteen Entries—Mr. and Mrs. Arthur Seegar Are the Favorite Parents—Pictures of Queen and Maid of Honor—Jubilee Ends to Day.**

The baby show was the great attraction of the carnival Friday. Long before the hour named for the parade and show, the anxious mothers had gathered in front of the coliseum with their beautiful little ones, in dainty robes, and carried in handsomely decorated perambulators.

There were fourteen entries in all and the judges had a difficult time in deciding to whom the honors should go. During the progress of the parade, however, which made a short circuit of a portion of the square, the judges got down to work

MISS JOSEPHINE PRESTON,  
Queen of the Jubilee.

and by the time the contestants and audience had gathered in the coliseum they were ready with their decision. The first prize of \$10 was awarded to the child of Mr. and Mrs. Arthur Seegar, second, \$5, for the best decorated buggy, to Mrs. W. C. Rabjohn; third, \$2.50, for prettiest dress, to Mrs. J. E. Decker. Each of the contestants was awarded two free passes to the Parker shows.

The judges to whom was given the difficult task of deciding this contest were: G. H. Hinton, Charles L. Deegen, Mrs. G. J. Yeek, Mrs. Mary E. Rowen and Mrs. Joe Robinson. The show was in charge of E. M. McGruder.

The fifth day of the carnival was as great a success as it has been all week. The free attractions continue to please and attract great crowds.

MISS MAE HILDRETH,  
Maid of Honor at Jubilee.

while the shows secure their share of the patronage and give general satisfaction.

Everything in connection with the carnival has so far gone off without a hitch, and no trouble of any kind has been reported. The people carried by the company are of an unusually high class and the crowds also have been of an exceptionally good character.

**Jim Hackett and Frank Belt will be the battery for Jacksonville Sunday.**

## PROOF OF EDUCATION.

Chicago Professor's Questions Re-  
quiring an Affirmative Answer.  
Professor Frank J. Miller, examiner  
of secondary schools, said recently at  
the Junior chapel of the University of  
Chicago that only those who can an-  
swer all of the following questions in  
the affirmative are educated, says a  
Chicago dispatch:

Has education given you sympathy  
for all good causes? Has it made you  
easier to interest in them? Has it  
made you public spirited, so that you  
look beyond your own doorway and  
take interest in a clean city?

Have you learned the proper value  
of money and time? Have you learned  
how to make friends and keep them? Do you know  
how to be a friend yourself? Can you  
look an honest man or pure  
woman straight in the eye?

Do you see anything to love in a lit-  
tle child? Will a lonely dog follow you in the  
street? Can you be high minded and happy  
in the drudgeries of life?

Can you think washing dishes and  
hoofing corn are just as compatible  
with high thinking as playing the piano  
or playing golf? Can you be happy alone?

Are you good for anything to your-  
self? Can you look out on the world and  
see anything but dollars and cents? Can  
you look into a mud puddle and  
see the blue sky reflected? Can you  
see good in everything?

Can you look up to the sky at night  
and see beyond the stars? Does your  
soul claim relationship with the Cre-  
ator?

Professor Miller said the failure to  
answer any of these questions affirma-  
tively is enough to send the man or  
woman who thinks he or she knows it  
all back among the uneducated. "The  
college curriculum does not contain  
all that is necessary to the educated  
man," said Professor Miller. "A man  
may be graduated and go out into the  
world, and still prey on society, not-  
withstanding his so called education."

### PAY 1100 EACH FOR HOGS.

At a sale of thoroughbred Berkshire hogs, held at the Willowsdale stock farm of G. G. Connel, near Vandalia, fifty hogs brought an average of \$100 per head or a total of \$5,450 for the fifty head. Heretofore the highest average per head was \$107, made at a sale made by Colonel A. J. Loveloy at Roseau, Ill., a few years ago. ## FOUND IN FIELD

### NEAR CHAPIN

Edward Clouder Brought to This City Friday—Man Wandering on Land Owned by J. C. McDaniels—Had Cigarmakers Union Card in Pocket.

Ed Clouder, of Springfield, was found west of this city Friday morning wandering aimlessly about in a stubblefield on a farm owned by J. C. McDaniels near Chapin. He was noticed by residents of that neighborhood to be acting in a strange manner and Mr. McDaniels, accompanied by T. L. Flynn, brought him over to this city, where they turned him over to Sheriff Rodgers at the county jail.

The man appeared to be demented, and as he refused to answer questions or pay any attention to the questioners it was at first thought that he was a deaf mute. He bore a due book of the Cigarmakers' union of Springfield showing that his dues to the union there had been paid up to within six weeks of the present time. It also showed that his name is Ed Clouder.

Inquiry at Springfield failed to elicit any definite information, but with the understanding that the man had relatives there, he was sent to that city on the afternoon train after having been fed at the jail. The officers of the local Cigarmakers' union took the matter up, but could learn nothing definite about the man aside from the fact that he has been a resident of Springfield since 1900.

The demented man was said to be in a deplorable condition physically, but it was not determined to what extent his mind was affected.
